

# Colombian Compares US-Latin Schools

By SUE ENDICOTT, Kernel Daily Editor

Student government, a campus newspaper, and women's residence halls are things which most college students in the United States take for granted. However, at the University of the Andes in Colombia, these things do not exist.

Dr. Julio Zuluaga, dean of admissions and registrar of the university, currently visiting UK, pointed out these differences between the Colombian school and universities in the United States.

This small private school in Bogota has an enrollment of 900 and is the only completely coeducational college in the country. There are about 300 women enrolled.

"There is no student government at Andes University," he said, "only associations for student extracurricular activities and sports."

The lack of student government serves as a pre-

ventative measure against students forcing their ideas upon the faculty, Dr. Zuluaga said.

In addition, the school has no formal student publication. Dr. Zuluaga said that when the school was first started courses in journalism were offered, but because of lack of interest it was dropped.

Several students work on newspapers in Bogota and there are students who put out a non-sponsored publication once a month containing campus news.

Dr. Zuluaga also pointed out that Colombian schools do not have to worry about Communist infiltration and efforts on the part of the Communists to propagandize the students.

Women students do not live in dormitories as they do on American campuses. These are reserved for men. Women must live with families or in apartments. This is a complete reversal of the policy at UK.

Contrary to opinions concerning the social life of South American students, Dr. Zuluaga said that men and women at the Andes campus have dances and many

other social functions the same as students from the United States. Dating customs are also similar.

In discussing the curriculum of the school, Dr. Zuluaga said, "At Andes University there are a large number of teachers from the United States, primarily in the English department because of the school's five-year engineering program."

Students studying engineering at the university take courses in Colombia for three years and then come to the United States for their final two years. The good English department makes it easier for these students when they come to the U.S., he said.

Dr. Zuluaga is one of the founders of the university and has been on its staff for 14 years. He is currently in the United States observing methods of college registration and admission.

Recently, he spent four months at Texas Western College preparing a group of teachers for Peace Corps work in Colombia.

### Gene Sayre Elected New IFC President

Gene Sayre was elected president of Interfraternity Council Tuesday night.

Other officers elected were John Hobbs, vice president; J. D. Craddock III, treasurer; and Luis Camargo, secretary.

Sayre is a junior pre-law major from Florence. He is a member of Pi Kappa Alpha, the Young Democrats, and is the current Arts & Science representative to the Student Congress.

Hobbs is a junior premed student from Lexington. In his second year with the IFC, John served last year as treasurer. He

is also a member of the Young Democrats, and Kappa Alpha.

Camargo is an engineering junior from Bogota, Colombia, a member of Phi Gamma Delta, he has been president of Newman Club and is active in the Student Congress.

Craddock of Lambda Chi Alpha is a junior commerce major from Munfordville, and is beginning his third year with the IFC. He is presently on the committee of 240 and is co-chairman of the Pushcart Derby.

The new officers will be installed March 19.

Sayre and Hobbs, and the IFC faculty advisor, Fred Strache, will go to the Southeastern Interfraternity Conference at the University of Georgia, Athens, Ga. March 29.

The Junior Interfraternity Council elected its new officers in its first meeting Monday night.

The executive staff consists of Lionel Hawse, Pi Kappa Alpha, president; Jim Benutich, Phi Delta Theta, vice-president; Terry Sherman, Alpha Tau Omega, secretary; and Charles McGuire, Kappa Alpha, treasurer. Installed as Project Chairman was Joe Lawrence, of Phi Kappa Tau.

The Jr. IFC, after a period of inactivity, was reactivated by the regular IFC Feb. 12. It is composed entirely of fraternity pledges and is designed to effectively regulate pledge training activities and scholarship.

#### 4-H Club Week Proclaimed

Three University students, state officers of the Kentucky 4-H Club, are presented with a proclamation declaring March 2-9 "Kentucky 4-H Club Week" by Gov. Bert T. Combs. The officers from the left are Patricia Hager, Larue County, secretary; Wendell Sparks, Lewis County, vice president; and Phillip K. Blevins of Wayne County, president.

### Outstanding Greeks To Be Named Tonight

The outstanding Greek man and woman will be announced at a banquet in the Student Union Ballroom tonight. The banquet is part of the Greek Week festivities.

The presentations will be made by Dean of Women Doris M. Seward, and acting Dean of Men Kenneth Harper.

Guest speaker at the banquet which is expected to draw a capacity crowd of 700 persons, is Dr. Robert H. Shaffer, dean of students at Indiana University. Dean Shaffer's topic will be "Is the Greek Way Passe?"

Candidates for outstanding Greek man include, Robert Carpenter, Delta Tau Delta; Don Carson, Sigma Chi; Larry Westfield and Johnny Williams, Phi Kappa Tau; and Bill Cooper, Sigma Phi Epsilon.

The finalists for outstanding Greek woman are Carolyn Reid, Chi Omega; Vanda Marcum, Pi Beta Phi; Mary Tapp Corbin, Kappa Kappa Gamma; Brenda Booke, Kappa Delta; and Ann Evans and Kay Shropshire Bell, Delta Delta Delta.

A representative of each Greek organization narrowed the origi-

nal candidates to 11. A faculty committee will make the final selection from these 11.

Greek Week will continue with a carnival at Joyland Park at 7:30 p.m. tomorrow. Sororities will present skits, and fraternities will run game booths. All students are invited and proceeds will go toward a campus project.

Dr. ROBERT SHAFFER  
Greek Week Speaker

### Dean Says Students Are More Serious

The number of students with genuine intellectual interests is on the increase, in contrast to the number of fun-seeking non-intellectual students.

This was the theme of Dr. M. M. White's annual "state-of-the-college" address at the 16th annual dinner of the College of Arts and Sciences, Dr. White is dean of the college.

"Students are becoming more and more junior partners with faculty members in the intellectual endeavor," said Dean White.

He went on to give what he considered outstanding examples of this trend. One was the program on Soviet techniques and policies asked for and organized by the Arts and Sciences senior class. "This demonstrates that students realize their responsibility for determining the kind of education they should obtain," Dean White told faculty members.

A second indication of the trend was that students were demanding more places on campus to study, particularly at night. Dr. Lawrence Thompson, head of the Margaret I. King Library, was commended for taking positive steps to satisfy this demand by extending library hours until midnight.

Members present were reminded that the prestige of an institution is based on two factors, one being published research of the faculty.

Dean White pointed out that last year the Arts and Sciences faculty had 182 articles published in professional journals, and had written 17 books.

The other element of prestige is the success of graduates either as students or faculty.

On the subject of students in graduate school, Dean White went on to add that the cost of

### 30 Students Pledge Seven Fraternities

Thirty students have been pledged by seven fraternities during the informal rush period, it was announced today.

The fraternities, their members and hometowns are as follows: ALPHA TAU OMEGA—Richard Carroll King, Pittsburgh, Pa.; Larry Lester McMahan, Campbellsville, and David Terrell Sherman, Louisville.

FARMHOUSE—Larry Gene Crabtree, Livia, and Lawrence Eugene Daniel, Oltaon.

PHI SIGMA KAPPA—Donald Ray Chasteen, Lexington, and Stephen Grant Monroe, Cameron, W. Va.

SIGMA NU—Wayne Lawrence Caddell, Stoughton, Mass.; William Joseph Callaway, Louisville; Thomas Edward Capala, Ambridge, Pa.; William Michael Duncan, Louisville; Jon Christopher Gale, Portsmouth, N.H., and Edgar Thomas Long III, Louisville.

SIGMA PHI EPSILON—Jon Wilson Anderson, Morganfield; Ray Conway Ashdown, Farmingdale, N.Y.; J. T. Begley, Clendenin, W. Va.; Jay DeChesere, Elizabethtown; Allen Sidney Fetting, Hopkinsville, and James Edward Pope, Louisville.

TAU KAPPA EPSILON—Richard Gary Antolovich, Cynthia; Arthur Malcolm Gagenheimer Jr., Pittsburgh, Pa.; Michael Allen Hoffman, Arlington, Va.; William Pierce Osborne, Benton; Daniel William Telegdy, Bridgeville, Pa., and Marion Douglas Smith, Frods-ville.

TRIANGLE—Lewis Gene Gay, McKee; Lucas Hatfield Jr., Ransom; Ronald King Hardaway, Elkton; Phillip McGuire Helfenberger, Hardburg, and Millard Wayne Wells, Lexington.

### Chandlerites Organize On Campus

Two moves by the backers of gubernatorial candidate A. B. "Happy" Chandler have cemented the Collegians for Chandler organization on the University.

An organizational meeting, held last week at the Newman Club, was followed yesterday by the announcement of the Campus Advisory Council. The group will co-ordinate campus-wide activity for the Chandler campaign.

The Thursday meeting, attended by an estimated 100 persons, was highlighted by a speech by Howard Boles from the Chandler Headquarters.

The following were announced as members of the group, which will work directly under campus co-chairman Jim Shuffett and Clifford Holiday: Bill Cooper, chairman, Ron Nickell, Lockie Overby, Gene Sayre, Harry Lee Waterfield Jr., Larry Westerfield, Joe Coughlin.

Also Tom Bunch, Del Hutchinson, John Butler, Lena Coward, Owen Harris, Jackie Robinson, Gene Mullins, and Ron Christopher.

# Highway Contractors Holding Seminar

A seminar designed to acquaint highway construction contractors with a method of evaluating, planning, and building to roads is being held at the University today.

Sponsored by the UK Department of Civil Engineering, the Computing Center, and the Kentucky Association of Highway Contractors, the session will be held in Room 342 of the Medical Center.

The "critical path method," a management control technique using computers, will be demonstrated to the contractors. It ap-

plied to complex highway construction projects, a computing machine can be employed to furnish valuable answers.

It may help a contractor finish a job on time, make adjustments for weather-caused delays, recommend shifting men and materials to critical parts of the job, or inform where the highway should be located.

During the seminar, the contractors will visit UK's computing center to observe how the "critical path method" is handled with electronic devices.

Conducting the seminar, which is limited to 25 contractors, will be Kert Goode, Dayton, Ohio, management science representative for International Business Machines Corporation; Charles Denham, employee of the R. R. Dawson Bridge Co., Lexington, and a civil engineering graduate student at UK, and Duncan White of the Computing Center.

## Students More Serious Dean White Says

Continued from Page 1

graduate instruction is 10 times greater than for freshmen and sophomores.

"Kentucky cannot afford to spend money on the incompetent graduate student, the student who, for one reason or another, does not complete his studies satisfactorily."

Speaking on enrollment, Dean White warned that one danger ahead was the swelling number of students seeking admission into the University.

Until a method is found to select students on the basis of desire to learn, no graduate of an approved high school within Kentucky should be denied that opportunity to enter college, Dr. White said.

Evaluating the past year, Dean White told his colleagues that the faculty was not as strong this year as it was the previous year because of the loss of several scholar-teachers to other institutions and special assignments.

White followed this by saying that there are strong indications this next year will be better in terms of student opportunity to learn, in faculty strength, and in lighter class loads for teachers.

Fred David Cox has been elect-president of the University branch of the American Marketing Association. Cox is a commerce senior from Lexington.

## CLASSIFIED

### WANTED

HELP WANTED—Part-time help for YWCA cafeteria, male or female. Openings available from 11 a.m. to 2 p.m. and 5:30 to 7:30 p.m. daily except Saturday. Cash and meals for compensation. Call Mrs. Margaret Mink, 254-3877. 5M4t

### FOR SALE

FOR SALE—1956 Volkswagen, blue, sun roof. Good condition. Phone 6-1919 after 5 p.m. 5M2t

ALTERATIONS—Coats, dresses and skirts altered. Knitted dresses shortened. Custom made hats. Phone 4-7446. New location 215 E. Maxwell. 5M2t

## Moot Court Competition Starts Today

The final round of competition in the College of Law's annual Moot Court Arguments will be held today and tomorrow at 7:30 in Lafferty Hall Courtroom.

Members of the Lexington Bar Association will serve as judges. Two winners each night will be selected to engage in arguments next fall for the Regional competition.

The participants for today are John D. Cole, Nicholasville; Charles T. Walters, Pound, Va.; Frank O. Trusty II, Jackson; and William M. Arvin, Nicholasville. Tomorrow's participants are David T. Enlow, Lexington; Clifford E. Smith Jr., Frankfort; Armer H. Mahan Jr., Louisville; and William B. Martin, Lexington.

The competition is open to the public.

## Ag, Home Ec. Will Hold Banquet

The Agriculture and Home Economics Awards Banquet will be held next Thursday at 6 p.m. in the Student Union Ballroom.

Dr. Thomas Clark, professor of history, will speak on "The Farm Way of Life in Changing Times."

John Peters, president of the Agriculture and Home Economics Council, will preside at the banquet, to which all faculty and students in agriculture and home economics are invited.

Some of the awards and scholarships which will be presented are the Borden Award, to the outstanding graduate in agriculture; the Jonas Weil Memorial Award, to the graduating senior with the highest grade point average in agriculture; the J. Weil Award, to the junior with highest grade point average in agriculture; and the Ralston-Purina Scholarship of \$500, to the outstanding junior in agriculture.

## Debaters Receive Trophy

James Crockarell and John Patton receive the first place trophy from Miss Kentucky, Nancy Bowling, for the UK debate team. The team placed first against 11 other colleges and universities in the annual Bluegrass Debate Tournament held at Georgetown College last Saturday.

## FM Spring Programs Star Teachers

## Professors Featured On WBKY Schedule

Several University professors are featured on WBKY, the UK FM radio station, this spring.

WBKY is sponsoring the Metropolitan Opera in live performances each Saturday at 2 p.m. WHAS is the only other station in Kentucky which is able to offer these programs.

Every Monday, Dr. Robert Johnson, director of Community Services, talks about Health and Science. The series concerns the University Medical Center and the medical profession.

An analysis of the news of Kentucky and the nation is presented by Dr. Malcolm Jewell, acting head of the Department of Political Science. The commentary is heard on Tuesday.

Dr. Gifford Blyden of the English Department each Wednesday discusses the importance of speech. He reviews good speaking procedures, the nature of our speech, and ways to improve it.

In Quest of Shakespeare, heard Thursday, different aspects of the life of William Shakespeare are presented. Dr. Robert Evans of the Department of English is the speaker.

Effects of Sound on the human being is discussed by Dr. Frank Kodman of the Psychology Department on Friday.

These five programs are heard on educational radio networks, and commercial stations throughout the state.

Two lecture series are taped in the classroom. Monday, Wednesday, and Friday, Dr. Thomas Clark, head of the History Department, teaches the History of Kentucky. Tuesday and Thursday, Dr. Raymond Schwendeman, head of the Department of Geography, teaches Geography of Kentucky.

## Air Cadets Fly South

Two UK Aerospace Science instructors will pilot 12 AFROTC cadets to Barksdale Air Force Base, Louisiana, today for a week end of touring base activity.

Lt. Col. Paul J. Schuler and Maj. John Thistlewood, Jr. will pilot a VC-47 military aircraft to the Louisiana installation, departing at 1:45 p.m. from Bluegrass Field.

Students taking the trip are as follows: Air Science 4-James S. Callender, Robert H. Robbins, and Frank S. Myers, Jr.; Air Science 3-Benjamin B. Finzer, Charles A. Davidson, and Donald L. Wagoner; Air Science 2-Michael D. Daugherty, Stephen D. Shook, and Thomas C. Brady; Air Science 1-Earl C. Kuhn III.

William H. Betts, and James R. Stiles.

The group will return to Bluegrass Field at 4 p.m. Saturday. Two more trips by air are planned this year.

## Dickey Cites Educational Needs Of Ky.

University President Frank G. Dickey, in a speech before the members of the Lexington Woman's Club Tuesday, emphasized three important values for the solution of the complex future of education in Kentucky.

1. Leadership and vision in developing programs for institutions.

2. Freedom to operate the educational programs in the state without interference and domination.

3. Both financial and moral support and understanding.

He told the clubwomen that the people of the state must be prepared to handle the large number of students in higher education in future years. He estimated that the number of higher education students would double by 1970.

He pointed out that the prestige of teachers has grown in the past five years, but some students still are reluctant to enter the profession because of low salaries.

# AWS Organization Explained

By MARGARET GOAD,  
Kernel Feature Writer

Much notice is given to Associated Women Students on this campus and to the policies and procedures that it passes. But, there are very few coeds who understand the workings of the organization.

The AWS on this campus is not one isolated group of women who have no connection with other colleges or universities. It is part of an organization that is national in membership. In almost every state, there is a group of women on various college campuses who perform legislative functions in accordance with the constitution of the Intercollegiate Association of Women Students.

The individual constitutions may vary, but they all are founded for one purpose—to determine privileges of women students and to carry out certain disciplinary actions if the policies are not followed.

Membership in AWS includes all women students enrolled in the University. Since the organization is set up for the women, they may appeal to the branches of the organization if conditions do not suit them. Since each woman student does not hold an office, this means assures her a voice in determining policies which affect her.

Not only does AWS review personal situations which cause discontent, it also creates, revises, and interprets the policies followed by the women's housing units. A council which is active in one unit may wish to enact procedures that are not in accordance with the overall policy followed by University housing units. If the plan is unsatisfactory to those living in the unit, it may be brought before the women's governing bodies on the campus and its validity may be decided.

As for the structure of AWS, there are three

divisions of it. The Senate, the House of Representatives, and the Women's Advisory Council comprise the working body of the organization. All of these branches work in cooperation with the office of the dean of women and one of them must answer to the Student Congress if questions arise.

Since the enrollment of the University is so large, it is impossible to have mass meetings and still accomplish the purpose of AWS. For this reason, the representatives are elected to the Senate and House of Representatives.

The Senate acts as both a legislative body which enacts laws and as an executive body which makes a final decision on the laws. The House carries out certain activities for University women and represents the women in matters which pertain to them.

The Women's Advisory Council acts mainly in situations which concern disciplinary actions. It is not a completely independent body since it works in conjunction with the dean of women, and its decisions may be appealed to the Judicial Board of Student Congress.

Membership in the WAC is NOT by popular vote. Candidates must submit applications for membership and be screened by several members of AWS. Final selection to the eight-member committee is determined by the members of the Women's Advisory Council.

The women who are elected to positions in AWS are in office for the benefit of all women students on the UK campus. Each represents a certain segment of the women and does her best to see that their interests are carried out.

Therefore, each woman should vote conscientiously for the nominee who will best fulfill her responsibilities and should not be forced into voting because of political transactions between groups.

## Social Activities

### ELECTIONS Pi Beta Phi

Becky Riley has been elected president of Pi Beta Phi sorority. Other officers are Donna Wilcox, vice president; Patty Pinson, recording secretary; Virginia Wesche, corresponding secretary; Ann Armstrong, treasurer; Mary F. Cammack, assistant treasurer; Lucia McDowell, pledge supervisor; jlayeahet—ifuOd-elili

Nanck Duke Stokes, assistant pledge supervisor; Harriet Heber, membership chairman; Connie Melon, assistant membership chairman; Tika Rouse, scholarship chairman; Susan Bailey, assistant scholarship chairman; Ann Richardson, program chairman; Etta Jane Caudill, activities chairman; Sandy Nichol and Lynda Spears, censors; Jimmie Parrott, historian; Gail Allen, assistant historian; Becky Moore, settlement school chairman; Susan Greff, house manager; Lucia Bridgeforth, social chairman; Louise Huss, magazine chairman; and Sally Skinkle, publicity chairman.

### Alpha Gamma Delta

Martine Noojin, has been elected president of Alpha Gamma Delta. Other officers elected were Karen Shablik, first vice president; Martha Bell, second vice president; Donna Yancy, recording secretary; Lena Cowherd corresponding secretary; Ann Meece, treasurer; Sue Ellen Grannis, activities chairman; Sue Price, altruistic project chairman; Emily Jo Whitlock, chaplain; Carole Honaker, editor; Linda Perkins, guard; Judy Clift, house chairman; Billy Jo Hedges, librarian; Pat Snell, membership chairman; Pat Fowler, rush chairman; Pat White, scribe; and Marie VanHoose, social chairman.

### Phi Sigma Kappa

The pledge class of Phi Sigma Kappa has elected John W. Bennett, president; John Stiller, vice president; Bob Jones, secretary-treasurer.

### Alpha Xi Delta

The pledge class of Alpha Xi Delta recently elected Janet Russ, president; Cheryl Miller, secretary; Christina Moser, activities

### Pawn Shop Said No

SPARTANBURG, S. C. (AP) — Mrs. Carol Eastwood, employed at a Spartanburg pawn shop, said a man walked into the shop and asked if he could pawn his leg.

She smiled and said she thought she misunderstood the man and asked that he repeat the question. The man countered that it wasn't funny and pulled up his trousers to the knee, displaying two artificial legs.

"I had to turn down his request," Mrs. Eastwood said.

chairman; and Tracy Shillito, social chairman.

### FarmHouse

The pledge class of FarmHouse has elected R. J. Farris, president; James Kittinger, vice president; Larry Crabtree, treasurer; James Dewey Clay, secretary-reporter; Donald Spangler, activities chairman; and James Kittinger and Charles Padgett, Jr., IFC representatives.

### Kinkead Hall

Kinkead Hall recently elected officers for the spring semester. They are Donna Meyer, secretary; Annmarie Nussbaumer, treasurer; Carol Tennesson, AWS representative; Cathy Osterman, social chairman; Wanda Stewart, disaster chairman; Brenda Parker, religious chairman; Bonnie Adair, hostess chairman.

### Bowman Hall

Bowman Hall recently elected the following officers: Sandy Robinson, president; Kathy Wilson, vice-president and AWS representative.

### Kappa Delta

Kappa Delta has elected officers for the coming year. They are Vivian Shipley, president; Sally Turnbull, vice-president; Gail Davidson, secretary; Donna Ellis, treasurer; Anne Woldridge, assistant treasurer; Ophelia Speight, editor; and Renee La Liberte, membership chairman.

### Sigma Alpha Epsilon

The officers of the pledge class of Sigma Alpha Epsilon are as follows: Steven Miller, president; James Lyne, Jr., vice president; Thomas Bersot, secretary-treasurer; Allen Purdy, song leader; Charles Cammack, warden; James Hawkins, social chairman; and Raymond Davis, project chairman.

### MEETINGS

#### Dutch Lunch

Dutch Lunch will meet at noon today in Room 205 of the Student Union Building.

### INITIATIONS

#### Pi Beta Phi

Pi Beta Phi recently initiated Joyce Gail Allen, Susan Bailey, Nancy Breisacher, Betty Brown, Mary F. Cammack, Ann Scott Covert, Donna DeCostos, Carol Ann Freeman, Mary Susan Gnaiff, Jane Havens, Louise Huss, Nancy Jo Kavanagh, Lucia McDowell, Sally Ochner, Jimmie Parrott, Charlotte Ann Richardson, Sally Jo Skinkle, Nancy Duke Stokes, Diane Kay Webb, Merry Werner, and Donno Jean Wilcox.

#### ALPHA XI DELTA

Alpha Xi Delta recently initiated Jane Atkinson, Miriam Conover, Mary Garland Goodlett, Laine Grosscup, Margaret Hite, Anna Laura Hood, Sandra Lay, Elizabeth Lilly, Carol Shore, Jean Virginia Shure, and Elizabeth Stuckert.

## Washington Women Help Ambassador's Wives

By CAROL RIVERS

Washington (AP)—In a basement across the street from the White House, a group of Washington women are proving to foreign diplomats that the warmth of friendship lies beneath the city's cold, marble facade.

They are members of the Hospitality and Information Service (THIS), a volunteer group that extends a helping hand to members of foreign diplomatic staffs and their families.

THIS volunteers conduct English language classes and special orientation meetings for new arrivals in Washington. A THIS worker might find herself chatting with a Pakistani attaché at a special tea, conducting a one-woman shopping tour for the wife of an Asian ambassador, or introducing two young African boys to the sport of bowling.

"We never know what's going to turn up," says Mrs. Dudley Owen, an attractive blonde who has been chairman of the committee since its inception in 1961. "One day I had a call from a woman who wanted to know how to repair a plastic swimming pool. Another day a woman from Sierra Leone said she was making a native dish and wanted to know where to get palm oil."

The committee was the "brain-child" of Mrs. Eleanor Israel, an officer in the protocol department of the State Department. She was aware that foreign visitors needed more help than the department could give them, and raised \$12,000 to get THIS off the ground.

Today the committee—operating without government funds—has more than 100 volunteers to call on, and the organization is still growing.

Mrs. Owen and Mrs. John McClinck, the vice chairman, comprise the group's executive committee. The only full-time paid staffer is Mrs. Elizabeth MacDonald, a Canadian-born Vassar graduate.

The sponsors of THIS are wives of cabinet members, who donate their time and talents, not just their names.

Once a Tactian woman who was going to give a demonstration of

flower arranging needed a banana leaf. Mrs. Owen called Mrs. Stewart Udall, wife of the Secretary of Interior, figuring that somewhere in her husband's bailiwick there was a banana leaf.

Mrs. Udall phoned the next day and reported that a banana leaf had been located. "I was going to give it to Stewart to deliver but when I saw it I didn't dare," the secretary's wife reported. The banana leaf was over six feet long.

Most of the requests are not so exotic. The committee is often asked to find tutors for children, locate recreational facilities, doctors, and information on schools.

Besides meeting the needs of individuals, the committee schedules tours of government departments and places of historical interest in and around Washington, tours of art galleries and special concerts.

To many of the people who seek the aid of THIS, the committee is the lone friendly haven in a strange land.

"One of our volunteers offered to take the sons of an African couple on a family bowling trip," Mrs. Owen says. "She walked into the couple's hotel room, and found the wife sitting on the bed, looking alone and dejected. Her husband was working, and she knew no one in the city. But as soon as she saw our girl, she brightened up. She was so glad to know someone cared."

## New Fashions Take Designs From History

By LOUISE HICKMAN

Associated Press Fashion Writer  
ROME, (AP)—Organized Italian fashion showings opened today with a collective showing of new boutique clothes for spring and summer. Among the new inspirations: Napoleon's sister, Paulina Borghese.

Hats, play clothes, knitwear and leather fashions were on the inaugural program in a Rome hotel.

Current big Italian film productions inspired La Cappeliera, Rome millinery designer, a high-crowned beige lace bonnet called "second empire" was straight out of "Imperial Venus." Gina Lollobrigida's latest. It's about Paulina Borghese.

A draped, black and white calico snood was called "Angelica" for the heroine of "The Leopard," saga of a noble Sicilian family which Pushino Visconti has just finished filming on that sunny isle.

Another design in the la Cappeliera show was a pale blue straw gaucho style with straw ruching bordering the slanted brim. A white straw ten-gallon hat had a black velvet band.

Hand-blocked prints led in the knitwear show of Annamaria Papi. The best were "Buckingham," a wooden-soldier design in red and black on a heavy white silk pullover, and "Tie-toc," a pattern of green and gold pocket watches on a navy blue silk pullover.

# What Happened?

What happened to the Big Blue? Who should shoulder the blame for the disastrous (for a Rupp-coached team) season recently completed?

It has been said that "The old Master is losing his touch," and that the "league is getting a little too tough for the Baron." Hogwash! The man just finished a 23-3 season with a national ranking of third on both polls in the 1961-62 campaign. This was done with what most qualified

observers considered not-particularly-promising material.

It has been said that the "great Cotton man didn't have the stuff." More hogwash! This year, Cotton Nash hung up the fourth highest scoring average in UK history. He was again the unanimous choice for All-SEC, again a second team All-America choice, and during the year he became the 13th Wildcat to produce a career total of over 1,000 points.

Let's just thank the Powers That Be that we had Cotton Nash.

What *did* happen this year is that Don Rolfe did not develop into a top-notch center, Sam Harper couldn't stay in the lineup, our regular guards didn't contribute enough points, and Cotton Nash very seldom was given the opportunity to handle the ball.

We needed a big man who could provide the power and rebounding at the post position. Rolfe didn't develop fast enough; neither did John Adams. Thus Nash had to take up the slack; this he did very well.

Harper was expected to provide scoring punch and playmaking ability. He simply didn't develop the way he should have. Charles Ishmael did an excellent job at the guard position until scholastic ineligibility removed him from the roster. Ted Deeken was then called upon and did very well; he came into his own as a ball player. But it was too late. These constant changes obviously affected the team's ability to work well together.

Finally, it seemed that Nash just wasn't given the ball. Our playmaker usually seemed to be avoiding Nash. At the end of the season we witnessed the result of Nash being given the opportunity to shoot . . . his performance against Auburn was a fine example.

It is unfortunate that the conglomeration of mistakes, bad luck, and short-comings should produce the mediocre UK (by most standards) season. It is ridiculous that this season's record should produce the wierd array of "explanations" for the Wildcats' lack of success—explanations such as "Baesler isn't trying," "Nash isn't any good," "Rupp's getting old," and even "somebody's throwin' the game."

## LITTLE MAN ON CAMPUS

"I MADE THE MISTAKE OF LETTING HIM SHOW ME THE SIGMA PHI NOTHING SECRET HAND CLASP."

## In Case Of Fire—Burn

Are books more important than lives?

Apparently they are to Dr. Lawrence S. Thompson, director of the University library. In a story in a Lexington newspaper Dr. Thompson was quite outspoken on a variety of subjects, including finances, student morals, and book safety. It appears the subject of student safety and convenience has been shamefully neglected. In protecting his precious books Dr. Thompson may have endangered the lives of all who use the Margaret I. King Library.

What are students to do in case of fire? Break windows and jump? If the present policy of locked doors continues such a method of escape

may be the only one available. Immediate corrective action should be taken. Any library that can afford the luxury of a rare book collection can afford to care for the safety and convenience of UK students. After all the students are the principal reason for the existence of the library. The cost of additional checkers is small in comparison to the lives that may be saved.

The *Kernel* feels that although the symbolic value of unreadable Tibetan xylographic books may be important to Dr. Thompson, the students would more appreciate the practical value of unlocked doors and additional checkers. We hope rapid consideration will be given to this pressing problem.

## A Quick Look At Today's Colleges

By RUSS WEIKEL

Recently the *Daily Texan*, student newspaper from the University of Texas, wrote an editorial that gives a somewhat misleading impression at first glance.

The editorial is captioned, "Sterile Screwworm Fund."

It went on to say that "recent outbreaks of cold weather in Texas may have an ironic boosting effect on an often overlooked but nevertheless important project—screwworm eradication."

It appears that the screwworm is a small fly that has been damaging crops in the Southwest for a great deal of time, and that the best and most efficient way for their destruction is to introduce a sterile screwworm.

This, the editorial advocates with the final apology for the unusually cold Texas weather this year: "It would indeed be a shame not to make some use of this cold weather."

At UK, little is said about selling Jensen Tweeters but a recent for sale ad in the *Daily Illini* does.

"FOR SALE: . . . Jensen Tweeter, cross over eight inch Sonotone Woofer \$25."

I don't know whether to whistle or to chirp.

The American Nazi Party made the news recently when they were denied the right to speak at Northwestern University. The following is

an excerpt from the *Roosevelt Torch* at Roosevelt University in Chicago, Ill.

"The scheduled appearance of George Lincoln Rockwell, head of the American Nazi Party, at Northwestern University Saturday was cancelled by order of the University administrators because 'no good purpose would be served' in allowing him to speak.

"Rockwell had been invited to speak by one of the Northwestern dormitories at a meeting to be restricted to members of that dorm. University officials had given permission to allow Rockwell to speak, but reversed their decision Wednesday.

"He is on record as anti-semitic, anti-Negro and would deny freedom of speech to any group or individual with whose philosophy he disagrees," University president, J. Roscoe Miller said when he issued the ban.

At UK we have been fortunate enough to never have had an incident of this type. It is, without doubt, censorship. Whether good or bad, it is up to the individual to decide.

On the campus of West Virginia University there is a definite indication that there is a moral problem in the dorms. As usual UK does not have the problem . . . or maybe it does.

An editorial printed in the *Daily Athenaeum* charges that a new policy put into effect in the dorms is "ridicu-

lous and humiliating."

"In its attack on 'excessive necking' in the dormitory lounge, the dorm Standards Board set up a ruling whereby anyone judged an offender must write a 500-word theme justifying her actions. The theme then is posted on the bulletin board, along with the woman's name so that all may read it and take warning."

"Residents of the hall, however, claim that by this rule women have 'been driven out' of the lounge—to other lounges, to apartments."

The significant argument that came from the editorial appeared in the last paragraph. "Should women be turned out from the well-lighted, well-chaperoned dorm lounge to an apartment or parked car?"

What is excessive necking? Well, that paper defines it as anything which does not meet the requirements of feet on the floor, head above the back of the couch.

Watch out you girls, if you're under 5' 2" you're dead.

The *Daily Iowan* recently ran an article that was of great importance to the liquor dry state.

The article concerned a new type of Idaho vodka made from Idaho potatoes. It seems that the Rocky Mountain Chemical Corporation is using cull potatoes to squeeze out VTD.F proof neutral grain spirits. The alcohol then is taken to Hood River, Ore., reduced to 90 proof, and bottled.

Dr. Adolph Placek, an Austrian-born chemist, is the man behind spudka. He is a specialist in distillation and fermentation and holds nine patents on his specialties.

"Placek said his cull spuds and waste potato scraps are being converted into 'high polish neutral spirits of as fine a quality as any alcohol distilled in America today.'"

Idaho drinkers will have a chance to taste spudka this month (Feb.) when it reaches Idaho's liquor stores for the first time.

## in Review

A man's struggle for survival amid the forces of nature is the basic theme of William Golding's latest addition to the paperback world "Pincher Martin."

Chris Martin is the sole survivor of a ship wreck. The novel opens with his struggle for air and his fight to the top of the water. It nears closing with his battle against insanity. And there is the usual "surprise" ending.

Sounds like an individualistic "Lord of the Flies" doesn't it?

William Golding has the irritating, yet ingenious manner of building tension through out the novel. This tension begins on page one and last until the next to the last page in the book. The reader is completely shattered upon reaching this point—and is usually completely thrown—that is, of course, if he is able to read the novel straight through without interruption.

Golding's descriptions are very vivid—almost too vivid for the sensitive reader (with a weak stomach). For example:

"The feet had been so thoroughly sodden that they seemed to have lost their shape. One big toe was blue and black with bruise and drying blood. There were bruises on either knee that ended in lacerations, not cuts or jabs but places the size of a sixpence where the skin and flesh had been worn off. His right hip was blue as though someone had laid a hand dipped in paint on it.

"He examined his arms. The right elbow was swollen and stiff and there were bruises about. Here and there on his body were patches, not of raw flesh but of blood flecks under the skin. He felt the bristles on his face tenderly. His right eye was fogged and that cheek was hot and stiff."

Martin, like most men under similar circumstances, is subjected to hallucinations, and because of the style of writing it is difficult, at first, to differentiate between the reality of the past and the reality of the present.

At the opening of the novel

there is a passage describing the sensations of a drowning man. This immediately switches to a discussion of a glass figure floating in a jam jar. One begins to wonder who's drowning who.

In comparison to Golding's earlier work, "Lord of the Flies," better. At least it has a more realistic ending. However, the word "perhaps" is necessary here because the two books really concern different aspects of life and therefore must be judged on their own merits.

The title of the work is interesting to observe. "Pincher" is an odd adjective on first notice, but it is an exact description of the man's basic character. Golding claims that at the core of every man is this greed, this urge to grasp hold of things and possess them. This was also illustrated in "Lord of the Flies." Man is naturally greedy, and he must constantly fight against this greed according to the rules of society.

But the novel goes beyond this description of character as it shows man's desire for survival under the most trying conditions.

Martin has almost overcome his struggle against madness when suddenly Golding begins:

"Mad," said the mouth, "raving mad. I can account for everything, lobsters, maggots, hardness, brilliant reality, the laws of nature, film-trailers, snapshots of sight and sound, flying lizards, enmity—how should a man not be mad? I will tell you what a man is. He goes on four legs till necessity bends the front end upright and makes a hybrid of him. The finger-prints of those hands are about his spine and just above the rump for proof if you want it. He is a freak, an ejected foetus robbed of his natural development, thrown out in the world with a naked covering of parchment, with too little room for his teeth and a soft bulging skull like a bubble. But nature stirs a pudding there and sets a thunderstorm flickering inside the hardening globe, white, lam-

By Jackie Elam

bent lightning, a constant flash and tremble. All your lobsters and film-trailers are nothing but the random intersections of instant bushes of lightning. The same life of your belly and your cock are on a simple circuit, but how can the stirred pudding keep constant? Tugged at by the pull of the earth, infected by the white stroke that engraved the book, furrowed, lines burned through it by hardship and torment and terror-unbalanced, brain-sick, at your last gasp on a rock in the sea, the pudding has boiled over and you are no worse than raving mad."

Golding is marvelous in his creation of tension and his aspects of horror. The reader is sickened by the physical sufferings of the man, yet so fascinated that he cannot stop reading. At the same time the reader is so aroused over the tension which keeps mounting he feels he must read the last page to find out if Martin survives—but the reader won't turn to the last page mainly because he won't want to stop reading long enough.

It's elementary my dear Watson—the novel is good.

It is available at Kennedy Book Store under the Capricorn series of paperbacks.

## 'Catch 22' Is Lampoon Of War

By PETER M. JONES, Kernel Daily Editor

Behold you of the 2 a.m. study session, you of the serious textbook type of reading diet. A book is available which is designed to cure your ills.

All you have to do to divorce yourself from reality is read the fictional "Catch 22" by Joseph Heller, an uproariously funny look at World War II published in paperback by Dell.

For just 75 cents you can meet such interesting characters as Yossarian, the frustrated flyer who would do anything to avoid going on a dangerous mission.

"I really can't believe it," Cleveringer exclaimed to Yossarian in a voice rising and falling in protest and wonder. It's a complete reversion to primitive superstition. They're confusing cause and effect. It makes as much sense as knocking on wood or crossing your fingers. They really believe that we wouldn't have to fly that mission tomorrow if someone would only tiptoe up to the map in the middle of the night and move the bomb line over Bologna. Can you imagine? You and I must be the only rational ones left."

"In the middle of the night Yossarian knocked on wood, crossed his fingers, and tiptoed out of his tent to move the bomb line over Bologna."

Another nefarious provider of mirth to the reader is Milo Mindbinder—truly the capitalist's capitalist. This crafty fellow took

Army planes, jeeps, trucks, etc., painted M&M Enterprises on the side and set up an international trade agreement with almost every nation in Europe, the Near and Middle East. It was much more profitable than going to war like the non-opportunists.

Milo made a profit on everything except Egyptian cotton. He cornered the market on that, but it just wasn't a selling item.

He did, however, buy eggs in Milan for seven cents and sell them for five cents on the base at Pianosa—for a profit.

Behind the hilarious front is also found a story of men dying and men living in constant fear of death. One reason for the frenzy to which Yossarian and his buddies are driven is an insane colonel who keeps upping the number of required combat missions just as the men near their goal.

If Yossarian was perhaps two missions from going home the colonel would raise the number to fifty, sixty, eighty! He had even thought of making the men fly 8,000 missions, but he never really carried it through.

Joseph Heller takes the typical war novel and makes an exciting, tremendously funny story out of it.

## Truth Better Than Fiction

# Works On Adams Are 'Fascinating'

Little is known by the general public about the private life of John Adams. Perhaps this is because his greatness has been overshadowed by his peers—other greats in history—George Washington, Thomas Jefferson, and Ben Franklin.

However, Page Smith, professor of history at the University of California, has attempted to remedy the situation with his two-volume edition of "John Adams."

It is unfortunate that the word "history" must be attached to the work, because of the derogatory meanings placed upon the term by American school children (and adults) forced to memorize dates, names, and places. But one of the most fascinating aspects of the work is the fact that it is true.

Intellectual college students may read for hours current novels and science fiction stories, but they shudder to think of reading a two-volume work on the life of one of the greats in American history.

John Adams is one of the most fascinating characters in our heritage. His love for Abigail generates a story equal to the tales of such lovers as Romeo and Juliet—Shakespeare's lovers only loved for three days; John and Abigail loved for almost 50 years. Their correspondence alone comprises an unforgettable tale of love and respect that is seldom matched.

Page Smith describes her as "the woman who insured his sanity." In listing her traits, he gives a good description of what every good wife should be:

"A wife cannot be utterly the converse of her husband and thus irreconcilable, nor the mirror image and thereby no more than an accentuation of his vices, since these may be more readily compounded than his virtues.

"At the happiest, she is able, as Abigail was, to enter with so much sympathy and understanding into her husband's world that she makes him more holy, more wholesome, more healthy. And this is what Abigail Adams did for the man who was her husband, her lover, and her friend."

The story of John's political life is one of struggle, hardships, and even terror—not at all the romantic period that most people make it out to be.

Of his views and opinions, Page Smith describes him as expressing "a number of points of view, many of them contradictory." And Smith makes a very interesting observation when he writes:

"Historians are generally uncomfortable in the face of con-

traditions and paradoxes. But life is full of both; professors may be rational but life is not. John Adams was often paradoxical, and since it did not worry him unduly, it should not worry historians.

"On one day John Adams loved the people of New England and saw in them every virtue and, if not every grace, almost every quality deserving of admiration and applause. On other days (sometimes the very next day) they seemed to him a narrow, avaricious, small-spirited lot.

"Sometimes it was clear to him that the American people had the greatest future of any people in the world or, indeed, in the whole sweep of history; and other

JOHN ADAMS

times he felt that only a miracle could draw the vast, sprawling continent into a brief, precarious unity."

The biography of John Adams is the first of its kind. And unlike biographies of old, in which the most interesting character in the history of the world is made to appear most boring, Page Smith captures and enhances the remarkable characteristics of the man while presenting a very enjoyable and readable work.

Smith doesn't hesitate to insert his own opinions (like the above remark about professors) and add subtle bits of humor throughout.

Page Smith's "John Adams" will make a beautiful and informative novel for education and knowledge as well as your library. It is available at Kennedy Book Store.

This is only one of the many important scenes in the history of our country which Page Smith captures in his historical work, "John Adams." It is the drafters of the Declaration of Independence submitting the document to Congress—from a painting by John Trumbull. Standing are, from

the left: John Adams, Roger Sherman, Robert Livingston, Thomas Jefferson, and Benjamin Franklin. Seated is John Hancock, then president of Congress, and to his right is Charles Thomson, secretary of Congress.

# Coliseum Site Of All Star Clash Delts, BSU Win Basketball Titles

Final plans for the East-West College All Star game took shape with the announcement of Bowling Green State's coach, Harold Anderson, assigned the task of coaching the East, while Tulane's Cliff Wells will get the job of directing the West.

The game will be played March 30 at the Coliseum.

The game, sponsored by the National Association of Basketball Coaches, will pit some of the brightest hoop stars in the nation in the first battle of its kind in the Lexington area. Local representative, Kennedy Engle, of the Lexington Jaycees, made the announcement of the coaching assignments last night.

Anderson, president of the coaches' association and retiring head at the Ohio school, will be concluding a brilliant and illustrious career with this latest assignment. Anderson has been in the collegiate coaching ranks for 28 years and just last week accounted for his 500th college win with a 67-58 victory over Notre Dame.

The win put him in the select group of Kentucky's Adolph Rupp, Western's Ed Diddle, Oklahoma State's Hank Iba, and

Amory Gill of Oregon State. Retired Phog Allen of Kansas is the only other mentor above 500 in the win column.

Wells, in his 47th year of coaching, 18 at the New Orleans school, is considered one of the game's best teachers. His Greenie teams are perennially among the first division in the rugged Southeastern Conference—having finished near the top 14 times in Wells' previous 17 years at the helm. Only Kentucky, Auburn, and Vandy hold the edge in victories over Wells-coached teams.

Like Anderson, Wells has been recognized by his colleagues and has served as president of the NAEC and is presently a member of the powerful Rules Committee.

Final selection of players for the tilt have not been made but

it appears that the East squad (players east of the Mississippi) will hold the upper hand. Most of this year's All-America players are from eastern schools.

Rod Thorn of West Virginia, Cincinnati's Tom Thacker, Bowling Green's Nate Thurmond, and Mississippi State's fine players would all qualify for the East squad of Harold Johnson.

Coach Wells may well have his fine star and SEC scoring leader, Jim Kerwin, with him in the star game.

Local fans will not have a chance to see Cotton Nash play as the game is limited to seniors.

The original plan for the game was to have the coaches of the NCAA finalists pilot the fives. However, with Anderson's retirement and the rumored retirement of Wells, it was decided to have this fine pair of coaches pilot the squads.

Delta Tau Delta, Baptist Student Union, and Donovan third floor all captured their respective divisions of the intramural basketball title played in Alumni Gym.

Paced by the hot shooting of Dave Tramontin, Ry Taliaferro, and Roscoe Mitchell, the Delts smashed Alpha Gamma Rho 39-27. Each scored nine, 10, and eight points respectively. Leading the AGR's in a losing cause was Owen Harris with 10 points and Bob Sinclair with seven. Both teams picked up the pace after the Delts enjoyed a 17-9 halftime advantage.

Donovan third floor proved too much for their fourth floor dorm

mates as they swept to a 38-22 win. The winners were led by Lester Robert's 19 points while Dickie Brawner led the losers with 12. Don. third floor led 22-14 at halftime.

The Baptist Student blasted the House of Lords by a convincing 48-34 verdict to gain the independent title. Don Corn flipped in 17 big points to pace the winners. Newman led the House of Lords with seven points.

## Wildcats Sign 7th Pa. Griddier

Fred Jones, a 202-pound guard and place kicking specialist from Barnesboro, Pa., added his name to the already impressive list of 1963 Kentucky football freshmen. Head Coach Charlie Bradshaw announced.

The latest signee is the seventh product of the fertile Pennsylvania high school recruiting territory to signal plans to continue his football and academic career at the University of Kentucky. Previous Keystone Staters inked by Wildcat coaches include tackle Jack Gill of Mahanoy City, fullback Bruce Bechtold of Springfield, and Bill Petit of Erie, tackle Dave Shores of Darby and the Caroli twins (halfback Mike and fullback Joe) of Philadelphia.

UK Assistant Dave Hart, former Class AA "Coach of the Year" at Johnstown (Pa.) High School, signed Jones to the official Southeastern Conference grant-in-aid and commented that the new Wildcat "possesses tremendous speed and quickness." He added that the boy is one of the fastest linemen I've seen this year. He's always on or around the football and his mental attitude is excellent. It will be a privilege to work with a young man of his qualities."

Jones, a 17-year-old who sizes up at 6-1 and 202 pounds now is still growing, was a three-year regular guard at Northern Cambria High School in Barnesboro. He was coached by Dan Miller and captained his team.

The son of Mr. and Mrs. Clifford Jones also led the team in tackles two straight years and picked up All-Skyline Conference (central Pennsylvania) honors while his team was posting a 7-3 mark last season.

Fred is regarded as an excellent point after touchdown kicker and kick off man. He ranks high in his class in scholastic average and plans to prepare for a teaching career in the UK College of Education.

ON  
TOGS

By  
"LINK"

ASK — Anyone that owns a pair of slacks made of "Dacron and cotton," and they will tell you they are the greatest—cool, comfortable and absolutely wrinkle free (I kid you not). If you are planning on a trek to Florida, a pair or two of these slacks should be in your suitcase with your "Blast Jacket." "Blast Jackets" are for fun wear and that is what Florida is—fun (I sound like the Chamber of Commerce!).

ANSWER — To a postcard from M.B.M. at Eastern College, Richmond, Ky. Question — "What is the best material for a spring and summer suit?" Answer — "A blend of Dacron and Wool. This combination cannot be beat!" B.M.B., I appreciated your card and hope I was of service.

ANSWER — To another card from C.DeO at Georgetown College, Georgetown, Ky. Question—"What time of the season do you start wearing white dinner (or tuxedo) coats?" Answer — "When the weather permits. Don't rush the season as the old cliché goes, but, do be prepared when the need arises. Play it cool!"

THOUGHT (At random) — Where is the Beanie from Transylvania College that was to be hung in the "Kentuckian Shop"???

IT ISN'T — Too early to give some thought to Bermuda shorts. Soon as it turns a little springish they are pretty well picked over and the selection is nil!

TIP OF THE WEEK — Keep your eye on light gray shades of suits for the coming season. Gray is gaining a lot of prominence in the fashion spotlight.

SOME — Buddies of mine took a crazy weekend trip to Myrtle Beach, S. C., and brought me back a pine tree. A pine tree!! What will I do with a pine tree?? Oh, well, the gesture was nice.

So Long For Now,

## CATNIPS

By Wally Pagan

Mississippi State at last has broken the racial barrier that has existed at the school for many decades. They finally have accepted, at least for the moment, a bid to the NCAA tournament.

They have come to realize that, if they want national recognition as a basketball power, they will have to compete in the tournament even though other teams have Negroes playing for them.

In the past, they have not competed against teams with Negro players, but now they shall come in contact with some of the finer Negro athletes in the NCAA for the first time.

Because of its "unwritten law" of not playing against Negroes, State has for some years used this as an excuse to not schedule strong teams in the beginning of its seasons. All its competition has come from the Southeastern Conference.

But perhaps if State does go to the NCAA, and does fare well against the part Negro teams, there is a slim possibility that it might put such teams on its regular schedule next year.

This, of course, is a very remote chance, but I think in all fairness to the conference, this should be done. In comparing schedules with other SEC foes, State holds a definite advantage.

While other teams are working hard to prepare for early season encounters, State just sits back and relaxes with its much easier opponents. This gives them a chance to set up the style of play which they might use against various SEC opponents.

Other schools can't do this because their records would be at stake.

Let's just compare the Kentucky and Mississippi State schedule before the conference began this year.

In the month of December, which is the preparatory month for conference games, Mississippi State played the following teams: Arkansas A&M, Louisiana Tech, Northeast Louisiana, Louisiana College, Memphis State, Virginia Tech, Christian Brothers, and Delta State.

In comparison, Kentucky played Virginia Tech, Temple, Florida State, Northwestern, North Carolina, Iowa and West Virginia.

Why should some teams be able to play any schedule that is desirable to them while others have to sweat blood through the whole season?

It is true that everyone could make out easy schedules as does Mississippi State in preparation for their conference battles. But this would surely prove disinteresting to the public. Fans want to see evenly matched basketball without such lopsided scores.

If Rupp would institute such a schedule here at the University, people probably couldn't be lured into the Coliseum with bribes. Do you think that 10,000 fans would want to see Kentucky battle it out with a belligerent Delta State team?

Mississippi State doesn't have to worry about the crowd problem. According to their public relations department, the state gymnasium seats around 5,000 people. (I believe this to be a slight exaggeration.) They have an enrollment of 5,200, so they could potentially fill the gym with students.

On the other hand, teams like Kentucky would have everything to lose if they scheduled such teams. The cobwebs would be the only spectators to witness such extravaganzas as Kentucky vs. Louisiana College.

What can be done to curb this? The NCAA has already gone to the trouble to classifying colleges into major and small categories. To stop such easy scheduling the why don't they just institute a rule by which a major team cannot play more than three small colleges during the season.

By doing this, it would provide better matchings for teams, and you wouldn't have to pick up a paper and read where Mississippi State beat Delta State by 40 points. No one is really interested in such a game, and it becomes very pathetic to the public.

Sure, Babe McCarthy can say he is winning, but it is without the glamour of beating some big non-conference teams. His records can stand at 23-3 every year, but how can one be satisfied knowing that half of these victories have come at the expense of small colleges.

## Senator Says Football Has No Characters

By The Associated Press

"No characters in pro football? Man alive, senator, how could you say that?"

That might well have been the reaction of an avid football fan to the statement of Sen. Kenneth Keating (D-N.Y.) that pro football has no characters in the sense that baseball has had them over the years.

How about Jim Thorpe, Red Grange, Bronko Nagurski, Ernie Nevers, Dutch Clark, Fats Henry, and Johnny Blood?

The Senator made the comment in his speech at the recent dinner of the New York baseball writers. He said:

"Now I don't want to make any invidious comparisons between baseball and football. I love them both. They're great American games. But somehow, perhaps you will agree, baseball by its nature has a color, a character, a touch of crazy capricious humor that football lacks. To my knowledge, pro football has no characters in the sense that baseball has had them over the years, players who have so humanized, so enriched the game simply by being themselves."

Thorpe, whose feats on the gridiron are legendary, was named the greatest male athlete of the half century in a 1950 Associated Press poll. As a half-back at the old Carlisle, Pa., Indian School, coached by Glenn "Pop" Warner, he was picked on Walter Camp's 1911 and 1912 All America teams.

He started playing pro football with the old Canton, Ohio, Bulldogs in the days before the National Football League was organized. One of the many stories about Thorpe concerns a Canton-Massillon game. Knute Rockne, later to become Notre Dame's coach, was playing end for Massillon.

As Rockne told the story at many later banquets, Thorpe couldn't gain around Rockne's end, finally Thorpe said: "Let old Jim run. People come to see old Jim run."

Couple of plays later Thorpe again ran Rockne's end. This time as Knute made ready to tackle him, Thorpe swerved and gave him the hip. They carried Rock off the field unconscious.

And who could forget Grange, the Galloping Ghost from Illinois, who drew sellout crowds wherever he appeared on an exhibition tour with the Chicago Bears after he had signed with them following the close of the 1925 college season.

Nagurski, an All America at Minnesota, once was described as the only fullback who ran his own interference.

## Mississippi Marooned

## College Board May Stop Miss. State's NCAA Trip

Mississippi State's tournament hopes were dealt a severe blow Tuesday when it was announced that five members of the State College Board demanded and got a special meeting of the board.

The issue is the competition of State against teams with Negro players in the NCAA tournament. It had been announced earlier that State would compete for the first time after having been barred on three occasions in the past.

It is presumed that a vote of the board will decide once and for all whether or not the Maroons will participate in the Mid-east Regional at East Lansing, Mich.

Should the Maroons go they would have to have at least one team with Negroes. Of the six teams in the tournament only and the Ohio Valley Conference representative (either Morehead or Tennessee Tech) do not have a Negro on their squad. State will have to play two games in the tournament.

After Mississippi State President D. W. Colvard announced the Maroons would play in the tournament unless "hindered by competent authority" there was an angry reaction by members of the Mississippi legislature.

Certain members of that body threatened to cut the school's state appropriation and Colvard was highly criticized by numerous segregationists.

However, there were many who praised his decision. Several petitions had been signed by noted Mississippi businessmen urging State's tournament participation. The unwritten law kept them from going in 1959, 1961, and

1962. Each time Kentucky took the substitute role.

In 1960, when Auburn won the title, Georgia Tech stepped in. The Alabamians were on NCAA probation.

Should State's path be blocked by the board, it would be Tech who would represent the Southeastern Conference. The Engineers wound up in a tie for second with Auburn but won the only game played between the two schools this season.

Mississippi Governor Ross Barnett, a strict segregationist who fought the admittance of Negro James James Meredith at the University of Mississippi, has remained silent on the basketball issue.

It was reported that all the board members were not in agreement with Colvard's decision but said it was the president's choice to make.

There have been editorials in Mississippi newspapers opposing State's tournament participation. The Meridian Star stated:

"We are fully aware that Mississippi teams are deprived of much athletic prestige by not playing integrated teams. However, we feel that dear as the athletic prestige of our schools may be, our southern way of life is infinitely more precious."

# Juniors To Head Program

Ann Combs and Carolyn Gore, both juniors, have been selected to head High School Leadership Day, March 15-16.

Members of the steering committee are Sharon Perkins, junior; Trudy Mascia, sophomore; Susan Scott, junior; Bobby Vincent, junior; Judy Clift, junior; Mary Lou Hicks, freshman; and Anne Nickols, junior. The faculty advisor is Miss Skip Harris.

Leadership Day is designed to bring outstanding senior girls from various Kentucky high schools to the campus and show them how they could benefit from a college education.

The steering committee chose approximately 60 girls to participate in the program.

Faculty and student panels, a tour of the campus and the horse barns, and a style show and luncheon are planned for the girls.

Each girl will have a freshman hostess and stay in a freshman dorm.

## Hooper To Present Lectures

Walter McGhee Hooper, a member of the English department at the University, will present a series of Lenten lectures, which began last night at the Episcopal Church of The Good Shepherd.

The lectures will be based on "The Basic Christianity of the Doctrine of the Church." There are four lectures in the series, which will be given every Wednesday evening through Passiontide, which is the Wednesday before Easter.

The first lecture dealt with the "Universal Moral Law." The topics to be discussed on subsequent Wednesday evenings are: "The New Creature in Christ," "The Communion of Saints," and "The Second Coming." These are all matters found in The Apostles Creed.

Hooper holds the MA degree in medieval renaissance literature from the University of North Carolina and has studied at Virginia Theological Seminary. He has formerly taught at Christ School in Arden, N.C.

This summer Hooper plans to go to Oxford, England, to interview C. S. Lewis, an English author, on whom Hooper is writing a book.

Most of Hooper's theological approach was inspired by Lewis.

## Director Sets March 11-15 Dates

# Placement Interviews Announced

Mrs. Katherine Kemper, Director of the University Placement Service has announced the schedule of interviews for March 11-15.

All seniors interested should contact the Placement Service which is located in the Administration Building.

**March 11**  
American Air Filter—Chemical, civil, and electrical engineering at B.S. level; mechanical engineering at B.S., M.S. levels; physics, industrial administration, marketing and sales. Citizenship required.

Anne Arundel County, Md. Schools—Teachers in all fields.

International Minerals & Chemicals Corp.—Agriculture, agricultural engineering for positions as production trainees, bulk blending trainees and sales representatives. Will consider men with no more than six months military obligation.

San Diego, Calif. Schools—Teachers in all fields. (Five years of training desirable.)

State Road Commission of W. Va.—Civil engineering at B.S., M.S. levels.

Grand Blanc, Mich. Schools—Teachers in all fields.

U. S. Naval Weapons Laboratory—Mathematics, microbiology, physics at all degree levels; chemical, electrical, and mechanical engineering at all degree levels. Citizenship required.

U. S. Public Health Service, Environmental Health Program—Chemical, civil, electrical, mechanical, and nuclear engineering; chemistry, biology, physics at B.S., M.S., Ph.D. levels. Active duty in the Commissioned Corps of the Public Health Service satisfies Selective Service obligation.

**March 11, 12**, Kentucky Department of Personnel—Graduates in all fields at all degree levels interested in investigating career opportunities with Kentucky state government; civil engineering at B.S., M.S. levels; mechanical engineering at B.S. level.

**March 12**  
Ernst & Ernst—Accounting business administration at B.S., M.B.A. levels.  
Gerdler Corp.—Chemical, civil, electrical, and mechanical engineering.

U. S. Army Materiel Command, Technical Placement Office—Mathematics, physics at all degree levels; chemical, electrical, mechanical, metallurgical, and nuclear engineering at

all degree levels. Citizenship required.  
**March 12, 13**, The Trane Company—M.B.A. candidates with undergraduate engineering degree; chemical, civil engineering at B.S. level; mechanical engineering at B.S., M.S. levels. Citizenship required.

**March 12, 13**, U. S. Navy, Officer Candidate Program—Officer programs officer will be in the SUB between 10 a.m. and 4 p.m. to describe Naval Officer Candidate School and other opportunities available to men and women in the U.S. Navy.

**March 12-14**, Bell Telephone System—American Telephone and Telegraph, Long Lines—Engineering, liberal arts, business administration; women with strong background in mathematics, sciences.

Bell Telephone Laboratories—Electrical, mechanical, metallurgical, engineering; physics at all degree levels; chemistry, mathematics at Ph.D. level.

Cincinnati Bell Telephone—Engineering, liberal arts, business administration, physical sciences for initial assignments in engineering, accounting, technical or business operations leading to management positions. (Will interview women.)

Sandia Corporation—Mechanical, electrical, aeronautical engineering at all degree levels; mathematics, physics at Ph.D. level.

Southern Bell Telephone and Telegraph Co.—Engineering, liberal arts, business administration, physical sciences for initial assignments in engineering, accounting, technical or business operations leading to management positions. (Will interview women.)

Western Electric, Manufacturing and Field Engineering Divisions—Civil, mechanical, metallurgical, and electrical engineering at all degree levels; industrial, chemical, and ceramics engineering at B.S. and M.S. levels; chemistry, mathematics, physics at all degree levels.

**March 13**  
Los Angeles County Civil Service Commission—Civil engineering at B.S., M.S. levels. Will consider non-citizens if they have formally declared their intentions to become citizens.

Republic Steel Corp.—Electrical, mechanical, and metallurgical engineering. Citizenship required.

U. S. Atomic Energy Commission—Accounting. Citizenship required.

**March 14**  
Alexander Grant & Co.—Accounting. Citizenship required.

Dayton Power and Light Co.—Electrical engineering. Citizenship required.

Virginia Department of Highways—Civil engineering at B.S., M.S. levels.  
U. S. Bureau of Mines—Metallurgical, mining engineering at B.S.

level. Citizenship required.  
**March 14, 15**, Rath Packing Co.—Men in all fields interested in sales management careers.

**March 14, 15**, Square D Co.—Electrical, and mechanical engineering.

**March 15**  
Arthur Anderson & Co.—Accounting.

Harford County, Maryland Schools, Bel Air, Mr.—Teachers in all fields.  
Perfect Circle—Mechanical engineering at B.S. level.

neering at B.S. level.  
Queens Borough Public Library, Jamaica, N. Y.—Library science at B.S., M.S. levels.

Shell Chemical Co.—General agriculture, agricultural economics, biochemistry, plant pathology, plant physiology, biological sciences, horticulture at B.S., M.S., Ph.D. levels. Candidates in chemistry interested in agriculture.

Glens Falls, N. Y., Schools—Teachers in all fields.
